

We're looking for a new office in Alameda County!

What we're looking for:

We are hoping to secure space for at least five team members with additional storage space for books and other program materials. We would love to enter into a sublease agreement with a community partner to share the growing burden of rental costs. *Do you know of a space that may fit our needs? We want to hear from you!*

Must-haves:

- Space for 5 desks
- Small storage space for boxes, books, and program materials
- Private area for phone calls and small-group meetings
- Access to office and storage space during weekends and after-hours
- 3-5 year lease option
- Kitchenette

Preferred:

- Easily accessible office space located on ground floor, or with elevator access
- Free or low-cost parking options
- Space near the office for loading/unloading cars with books and materials
- Shared conference room space for larger group meetings (up to 12 people)
- Janitorial services included
- Managed, shared space

If you know of any organizations looking for office space in Oakland, San Leandro, El Cerrito, Emeryville, Fruitvale, or Hayward, we would love to connect with you! We would love to find our new East Bay office space by February 1, 2019.

Thank you for your support as we search for a new home-base to better serve Alameda County families and children in the coming year!
